Nursery Department.

Auratum Lilies.

We grow and supply the best grade of nursery stock the market affords. Our facilities are very complete, every department being under efficient management. That our methods are meeting with popular favor is evidenced by the rapid growth our business enjoys. By purchasing from our Nurseries you are guaranteed *High Quality* stock. It is grown under most favorable conditions, dug and packed by skilled and careful workmen. Our nursery stock can be depended on to produce maximum results when planted under favorable conditions. The Nurseries are open to the public every day of the year, but positively no business will be transacted Sunday.

Landscape Department.

Landscape work, as now generally considered, involves such out-of-door problems as have to do with making public and private grounds more beautiful and useful. From the simplest to the most complicated work, best results can only be obtained by a thorough grasp of the questions involved, demanding a wide practical experience. Our landscape department is under well equipped and expert management. We are glad to offer suggestions and submit sketches for plantings without charge to intending purchases, but where landscape problems require special visits, plans, specifications, etc., a charge is made for professional services. We will be pleased to take up this matter more fully with those who are interested.

Gardening Department.

We maintain a force of competent gardeners who can execute gardening work in a thorough and practical manner. Pruning and otherwise caring for established trees, vines, etc., is a special feature of our winter work, and one that an owner can afford to put into experienced hands. Many trees whose worth cannot be counted in dollars, which are perishing from neglect, can be restored to health and given a new lease of life if given proper treatment. We can refer to many satisfied clients who have approved our planting plans, procured their stock from us and employed us to carry out the work. Genuine economy is many times gained by having all the work incidental to the carrying out of a landscape problem under one general contract.

Important to Purchasers.

Drive to office from Edgewood Avenue.

PRICES—NOTE CAREFULLY. *Single-rate prices* are for less than five of a kind.

Ten-rate prices are for five or more and less than twenty-five of a kind.

Hundred-rate prices are for twenty-five or more and less than 250 of a kind.

Thousand-rate prices are for 250 or more of a kind.

We cannot agree to fill small orders for a few of a kind for less than single rates, as it oftentimes takes one over many acres of ground to fill a single

order, and the proportionate expense of digging and packing orders must be taken into account.

SPECIAL DISCOUNTS ON TREES AND PLANTS. To those who send us orders for less than five of a kind, shipped at the same time, amounting to the following:

Orders amounting to	\$10.00, a discount of	5%
Orders amounting to	\$30.00, a discount of	10%
Orders amounting to	\$50.00, a discount of	15%
Orders amounting to	\$75.00, a discount of	20%
Orders amounting to	\$100.00, a discount of	25%

**FROM SINGLE
RATE PRICES.**

Special discounts on larger orders. Send us list for estimate.

These discounts apply to Trees and other Plants only, and not to grass seed, fertilizers, etc.

Trees and Plants individually selected at our nurseries or special quotations will be charged for according to quoted price *without discounts*. This does not mean that the rates will necessarily be advanced.

TERMS. Cash in advance from unknown parties who do not furnish satisfactory reference. We send invoice at time of shipment of order, and should any error be noticed on receipt of goods notify us immediately and we will do all in our power to rectify it.

HOW ORDERS ARE SHIPPED. We ship all large trees and other bulky orders, which are to go outside the city, by freight, unless otherwise requested. Medium sized orders can be shipped by express to advantage; this way is especially advisable where immediate arrival is desired. All orders are delivered free to local freight, express companies and in the city. We are not liable for delays by forwarding parties. If stock is not promptly received notify us and we will promptly trace.

PACKING. We make no charge for packing *except where stock is purchased at hundred-rate prices or in the case of large bulky stock, or where we are requested to ship with carefully preserved balls of earth, etc.*, which necessitates devoting more time and packing material than is usual. In such instances a charge covering cost is made.

HOW TO REACH US. Our nursery and office are located at EDGEWOOD, Edgewood Avenue, just beyond Edgewood Park. The Edgewood Avenue cars direct to the nursery from the Railroad Station, and by transfer from transfer points. Parties autoing, driving or wheeling to the nursery will find West Chapel Street the best route, turning to the right at either Central or Alden Avenue.

EARLY ORDERS. To one familiar with the rush at the packing season, it must be obvious that it is impossible to fill an order requiring much time in its preparation on short notice without doing an injustice to others who have their orders previously booked. In fairness to all, we have adopted the practice of filling orders in the rotation received, unless orders are received far enough ahead of the packing season, with instructions to ship at a given date, so that we can arrange a special shipping date. So we again say—*place your order as far in advance of shipping as you possibly can, stating when you would like stock sent.*

Hardy Herbaceous Plants.

ALL plants whose roots are hardy and remain alive from year to year and whose tops die annually to the ground are classified under this heading. It includes such splendid garden plants as Paeonies, Iris, Larkspurs, etc. The great ease with which these plants can be grown and their great variety of color and form and season of bloom make them indispensable for the garden. Of late years, there has been a steadily increasing demand for this class of plants as well as a great improvement in the varieties, so that they now make an important feature in the business of many nurserymen. We are making them a specialty at the nursery, growing them in large quantities out in the open fields under the most favorable conditions. The classification is the one adopted by Prof. L. H. Bailey in the Cyclopaedia of American Horticulture.

Height at flowering season and time of blossoming, general color of bloom, and very brief descriptions only are attempted in this abridged list.

Alphabetical List.

A **ACHILLEA FILIPENDULINA** (Fern-leaved Yarrow). 3 to 4 feet. June to September.

This is a very decorative plant, clear yellow, producing flat corymbs. ***ACHILLEA MILLEFOLIUM VAR. RUBRA** (Red Yarrow). 1 to 3 feet. June to October. Aromatic, fern-like foliage, which is very ornamental. Wine red.

***ACHILLEA PTARMICA VAR. FL. PL.** (Pearl). 1 to 2 feet. May to Oct. Double white. A very effective plant, especially when in bloom. Much prized as a cut flower.

***ACHILLEA TOMENTOSUM** (Wooly Yarrow). 8 to 10 inches. June and July. Handsome cut foliage and bright yellow flowers.

ACONITUM AUTUMNALE (Monk's Hood). 5 to 6 feet. September, October. Deep blue and a stately showy plant.

ACONITUM FISHERI (Monk's Hood). 4 to 6 feet. August and September. Light blue.

ACONITUM NAPELLUS (Monk's Hood). 3 to 4 feet. June to July. Deep blue.

ACONITUM NAPELLUS BI-COLOR (Monk's Hood). 3 to 4 feet. July and August. Blue, mottled with white.

ACONITUM NAPELLUS VAR. ALBUM (Monk's Hood). Like preceding, but flowers almost white.

ADAM'S NEEDLE, see Yucca.

***AEGOPODIUM PODAGRARIA VARIEGATA**. One foot. Splendid for covering the ground under trees. Will grow anywhere, even in shady places.

ALTHAEA (Hollyhocks).

Always a popular garden plant and while they are grown from seed it takes one season of growth before they will bloom. There is always, therefore, a demand for plants of a blooming size. They require a very rich soil to get the best results. Following colors: Double Crimson, Red, White, Yellow, Single-mixed; Double-mixed; Allegheny—semi-double.

ALYSSUM SAXATILE (Golden-tuft). ½ to 1 foot. May and June.

Forms a clump of velvety foliage and flowers are the richest yellow and fragrant.

***AMSONIA ANGUSTIFOLIA**. 2 to 4 feet. Glossy, willow-like leaves, forming a bushy mass of foliage. Flowers white. June.

ANEMONE JAPONICA. 2 to 4 feet. September and October. Graceful and charming in every way. Thrives best in well drained soil and protected exposure.

Alba. Pure white petals, yellow center.

Rubra. Light rose petals.

Queen Charlotte. Semi-double, pink.

Whirlwind. Pure white semi-double.

ANTHEMIS TINCTORIA ALBA. 2 to 3 feet. July to October. Creamy white.

ANTHEMIS TINCTORIA VAR. KELWAYI. 2 to 3 feet. July to October. Brilliant yellow daisies in great masses, splendid for cutting.

APIOS TUBEROSA. 6 to 8 feet. July. Of climbing habit and with wistaria-like foliage. Blooms in clusters of pea-like flowers of a reddish chocolate color.

AQUILEGIA COERULEA (Columbine). 1 to 2 feet. May to September.

This is the Rocky Mountain Blue Columbine with the long spurs.

AQUILEGIA COERULEA HYBRIDA. 1 to 2 feet. May to September. A great variety of shades from deep blue to rose.

AQUILEGIA CHRYSANTHA. 2 to 3 feet. May to September.

Another Rocky Mountain Columbine with long yellow spurs.

AQUILEGIA CHRYSANTHA VAR. ALBA. 2 to 3 feet. May to August.

A light or white form of the preceding.

AQUILEGIA VULGARIS (European Columbine). 1 to 3 feet. June to August. Rose blue, white, assorted colors.

***ARABIS ALBIDA** (Rock Cress). ½ to 1 foot. April.

A beautiful low-growing plant with velvety foliage which is evergreen. Mass of snow-white in April, making it one of the earliest plants to bloom.

ARENARIA GRANDIFLORA (Sandwort). 6 inches.

May. Close-growing evergreen plant, forming a carpet of verdure. Very desirable for rock work; pure white.

ARMERIA FORMOSA. 6 to 12 inches. July and August.

Bright pink. Fine for borders and rockery.

ARMERIA MARITIMA SPLENDENS. (Thrift). 9 inches. July and August.

Evergreen tufts of bright green foliage, from which innumerable flowers appear in dense heads. Pink.

***ARUNCUS SYLVESTER** (Spiraea Aruncus). 5 to 6 feet. May and June. Creamy white.

A desirable, strong-growing plant.

ARUNDONAX (Giant Reed). 8 to 20 feet. Decorative tall grass or reed.

***ASCLEPIAS TUBEROSA** (Butterfly Milkweed). 2 to 3 feet. July and August. Orange.

ASPERULA ODORATA (Sweet Woodruff). 6 to 8 inches. May and June. White.

Japan Anemone,
"Whirlwind."

FUNKIA LANCIFOLIA VAR. ALBA-MARGINATA. 6 to 12 inches. August to October. Pale lilac. Foliage margined with white.

*FUNKIA OVATA. 1 to 1½ feet. July to September. Deep blue.

*FUNKIA SIEBOLDIANA (Day Lily). 1 to 1½ feet. July and August. Pale lilac. Silvery blue foliage. Like all the following forms of Funkia, this Day Lily thrives well in the shade, forming effective clumps of heart-shaped foliage, flower spikes well above it.

FUNKIA SUBCORDATA (White Day Lily). 1 to 1½ feet. July and August. White. Light green foliage.

*FUNKIA UNDULATA VARIEGATA. 8 to 12 inches. One of the best variegated-leaved plants. Attractive for the border.

FERNs, HARDY. Charming native plants.

VARIETIES.

Adiantum Pedatum (Maidenhair Fern). One of the prettiest. Grows about a foot high in rich shades, and responds readily to cultivation.*Matteuccia Struthiopteris* (Ostrich Fern).

One of the most stately, and one of the best for cultivation.

Osmunda Cinnamomea (Cinnamon Fern).

Often 5 feet high and 8 inches wide.

Osmunda Claytoniana. Grows 2 to 3 feet high, is found in rather dry shaded places.*Polypodium Vulgare* (Common Polypody). One of the best evergreen species for rock-work.*Polystichum Acrostichoides*. (Christmas Fern). An evergreen species, about a foot high, with deep green fronds simply divided.*Woodwardia Areolata* (Netted Chain Fern).

Grows 12 to 18 inches high.

Asplenium Filix-foemina (Lady Fern). A large, handsome Fern 2 to 3 feet high, with finely cut foliage.*Asplenium Thelypteroides* (Silver Spleenwort). Attains a height of three feet, and has fronds 3 to 5 inches wide.*Dennstaedtia Punctilobula* (Hay-scented or Gossamer Fern). Grows 1 to 2 feet high. Fronds pale green.*Dryopteris Cristata* (Crested Wood Fern). This is an evergreen Fern; grows about a foot high.*Dryopteris Marginalis* (Evergreen Wood Fern). One of our prettiest evergreen species.*Dryopteris Spinulosa* (Wood Fern). Evergreen species, about 15 inches high.

GAILLARDIA ARISTATA (Blanket Flower). 2 to 3 feet. July to Oct. Bright red, yellow splashes.

GEUM HELDREICHI. 10 to 12 inches. May to August. Pretty border plant, producing beautiful orange-colored flowers.

GEUM HELDREICHI SPLENDENS. New variety even more showy than preceding.

GERMAN IRIS, see page 27.

GIANT REED, see *Arundo*.GOLDEN-GLOW, see *Rudbeckia*.GOLDEN ROD, see *Solidago*.

GRASS SEED, see page 39.

GRASSES, see *Erianthus* and *Miscanthus*.GROUND IVY, see *Nepeta*.

*GYPSOPHILA PANICULATA. 3 to 4 feet. July to October. Known as Infant's Breath. Produces a mass of the smallest white flowers so disposed as to form a veritable cloud of bloom. Keeps well when cut.

GYPSOPHILA PANICULATA FL. PL. 3 to 4 feet. July to October.

A new double form and very desirable. 50 cents.

HARDY FERNS, see Ferns.

*HELENIUM AUTUMNALE (Sneezeweed). 6 to 7 feet. August and September.

One of the best tall-growing garden plants. Flowers golden yellow; in large masses.

HELENIUM GRANDI-EPHALUM CUPREUM. 3 to 4 feet. July to September.

This new variety of *Helenium* produces coppery red flowers of a rich shade.

*HELIANTHUS MAXIMILIANI. 4 to 6 feet. August to October.

Fine golden yellow, valuable late flowering plant.

HELIANTHUS MULTIFLORUS FL. PL. 3 to 4 feet. August to October.

Resembles Golden-Glow, but more double and less tall grower.

*HELIANTHUS ORGYALIS. 5 to 7 feet. October and November.

The tall flower spikes of the plant produced so late in the season with their medium sized, sunflower-like blooms, disposed all along the stems, make it especially useful.

*HELIOPSIS LAEVIS. 4 to 5 feet. July to November.

Another good hardy plant with rich yellow daisy-like flowers in great profusion.

*HELEBORUS NIGER (Christmas Rose). 6 to 12 inches. October to March.

This interesting plant really produces its flowers in the winter, out of doors. Dainty begonia-like blooms, almost hidden in a clump of glossy evergreen leaves. It is best

to select a place for this plant which is sheltered from the winds in winter and

where it can remain for years undisturbed.

The following yellow lilies are all very desirable.

HEMEROCALLIS AURANTIACA VAR. MAJOR. 2 to 2½ feet. June and July. Rich orange yellow, new and rare. Strong plants 50 cents.

HEMEROCALLIS DUMORTIERII (Early Yellow Lily). Japan. 1 to 2 feet. June. Deep yellow and fragrant. Makes a splendid foreground plant.

*HEMEROCALLIS FLAVA (Lemon Lily). 2 to 3 feet. June and July. Pale lemon yellow; fragrant. This old garden favorite is most effective when grown in generous masses.

*HEMEROCALLIS FULVA (Orange Lily). 2 to 4 feet. July and August.

This grand old lily is now much in demand for naturalizing in large masses and

when wanted in large quantities we will be glad to quote special prices.

- *VERONICA SPICATA.** 2 to 4 feet. June to August. Deep blue in spikes.
- *VINCA MINOR** (Evergreen Myrtle) (Periwinkle).
- One of the best evergreen plants for covering the ground and is a success in quite shady places, provided the ground is fertile.
- *VINCA MINOR VAR. ALBA.**
- A pure white variety of preceding; not common in cultivation, but should be, as it is quite as easy to grow, and the white flowers are very beautiful.
- VINCA MINOR VAR. ROSEA.**
- A variety of the Myrtle with rosy red flowers of a very pleasing hue.
- VIOLA CORNUTA** (Crested Violet).
- Beautiful pansy-like violets with blue flowers and glossy foliage.
- VIOLA CORNUTA VAR. ALBA.**
- Like the preceding; with pure white flowers.
- VIOLA CORNUTA HYBRIDA VAR. LUTEA SPLENDENS.**
- This hybrid produces beautiful yellow flowers, and is a splendid new plant.
- VIOLA ODORATA VAR. FL. PL.** (Sweet English Violets).
- The true double, sweet-scented English hardy violet. Color is of the deepest blue, and produced in such great profusion in the early spring as to quite cover the plant and fill the air with their delightful fragrance.
- VIOLA ODORATA VAR. ALBA.**
- Like preceding other than the flowers, which are single white.
- VIOLA ODORATA VAR. ALBA FL. PL.**
- Another beautiful form. Flowers double white, very large, tinted with pale blue.
- VIOLA TRICOLOR** (Garden Pansy).
- Our pansies are especially fine and stocky. Prices, each 5 cents; per 10, 40 cents; per 100, \$3.00; per 1,000, \$28.50. Ready March 15th.
- WOODRUFF,** see Asperula.
- WINDFLOWER,** see Anemone.
- YARROW,** see Achillea.
- *YUCCA FILAMENTOSA** (Adam's Needle).
- One of the most valuable plants in cultivation for general garden and landscape planting. Its dagger-like foliage, which is evergreen, forms an attractive clump of foliage from which shoots, in July and August, tall and stately spikes 3 to 6 feet high, bearing large panicles of white lilies which are most picturesque and decorative.

The above Hardy Herbaceous Plants are offered in three sizes, as follows, unless otherwise noted. The very heavy field clumps can only be supplied in the sorts marked with a * to the left.

HARDY HERBACEOUS PLANTS.

Paeonia Festiva Maxima, a magnificent white, see description on this page.

Pæonies (Herbaceous.)

THE Paeony is to-day without a rival as a hardy garden favorite, and quite naturally so, as no other hardy garden plant thrives with as little special care and produces as fine a display of gorgeous blooms. The great diversity of color and form which can now be obtained, very much increases the importance of the Paeonia.

Light grade (our selection of varieties only), each, \$0.20; per 10, \$1.80; per 100, \$15.00.

Our roses should not be confounded with the department store articles often offered. Our roses are all selected strong field-grown dormant plants dug fresh from the open ground and securely packed for each order.

*Dorothy Perkins,
The Popular Pink Rambler.*

Garden Hybrid Roses--Strictly Hardy.

This class of roses blooms profusely in June and at intervals throughout the Summer and Fall. The popular hardy garden roses mostly belong to this class and are always satisfactory.

Do not allow roses to suffer from want of plenty of fertilizer, as they are gross feeders, and only when they have plenty to feed on can they be expected to produce best results.

Alfred Colomb. Brilliant carmine crimson; very large, full, and of fine globular form.

Anne De Diesbach. (Syn. Glory of France.) Carmine, a beautiful shade; very large. A superior garden sort; fragrant.

Baby Rambler. The rose hybridists certainly made a remarkable happy combination when they succeeded in creating this wonderful new rose. Imagine a bushy rose just right for the flower garden or a pot plant as to size with all the beauty of color and great clusters of the crimson rambler and add to this that it will bloom constantly all summer. Perfect in form and color.

Baron De Bonstetten. Rich velvety maroon; large, full. A splendid sort.

Clio. Flowers large, of fine globular form, flesh-color, shaded in the center with rosy pink; growth vigorous.

Countess of Oxford. Cherry red, fine form, beautiful foliage, fragrant.

Earl of Dufferin. Rich brilliant velvety crimson, shaded with dark maroon; large, full, finely formed; delightful fragrance.

Fisher Holmes. Similar to the Jacqueminot.

Francois Levet. Cherry pink; medium size; well formed; vigorous habit.

Frau Karl Druschki. Flowers very large, beautiful, pure white. This is one of the best white hybrid perpetuals yet introduced.

Fruit Department.

Fruit trees in variety of the popular transplanting sizes.

FRUIT growing on a large scale is one of the country's profitable industries. No part of our country offers a better opportunity to grow high flavored or colored fruits, especially apples, than New England.

In a smaller way the home acre, yes, even the small city garden, can be made to return crops of fruit well worth all the labor expended. There is the other side, the genuine pleasure and delight many of us get, and more would if they only knew what they are missing, in watching the trees grow. From the blossoming time, when the orchards rival in beauty the flower gardens until the ripening colors appear and in the full maturity we have the actual luscious fruits of our watchfulness and care one's interest is kept at the top notch.

Pulverized Sheep Manure.

BOTH first cost, economy and ease of applying are too important factors to disregard in the handling of fertilizers. Commercial fertilizers are, no doubt, all right for special purposes, but in *pulverized natural manure* we have nature's own way and in a most convenient form for handling. It is just as it comes from the stockyard pens, only it is thoroughly dried and put through pulverizing machines. If you have never used pulverized manure you will be agreeably astonished with the results. The weed seeds and bugs have all been destroyed.

Applied on the lawns in early spring or fall and a deep green growth will quickly follow, which will remain throughout the season under favorable conditions. For applying at time of seeding down new lawns, nothing will give better results. For lawns apply on the surface broadcast 100 pounds to the 1,000 square feet; for the garden, two to three times this amount, depending upon the soil, two or three tons to acre.

Inquire for special printed matter.

Prices of Pulverized Sheep Manure.

In bags, 100 or more pounds and less than 500, per lb., 2c.

In bags, 500 or more pounds, \$7.00; 1,000 lbs., \$13.00.

In bags, 2,000 lbs. (ton), \$25.00; five tons, \$120.00, F. O. B. New Haven, Conn.

Car lots, in bag or bulk, 15 to 20 tons, f. o. b. your station, prices promptly quoted.

Five ton lots or less delivered from our own warehouse here at New Haven, Conn. Car lots shipped direct from Chicago.

Hardwood Ashes (Edgewood Brand.)

AS a good all-round fertilizer, our Edgewood Brand Canada Unleached Hard-Wood Ashes, have unchallenged value. For lawns, for fruit and ornamental trees and plants, they are superior to stable manure, and far less expensive. The carry no weed seeds, are odorless, clean and easy to handle. The beneficial effect resulting from their use is immediate. Spread evenly from one to two tons to an acre, according to the condition of the soil, or, for small lawns, 100 to 150 pounds to 1,000 square feet of sod.

Prices: We put them up in 100-pound bags: 100 pounds for \$1.50; 200 pounds for \$2.00; one ton, \$18.00, including bags. Special prices on car-load lots in bulk or bags.

Ground Bone (Edgewood Brand.)

FOR general fertilizing purposes on the lawn, meadow or in the garden. The finer particles are immediately beneficial, the coarse keeping up the supply of plant food for a long period. Use about the same amount advised for Wood Ashes at same time you apply the Wood Ashes. Per one-hundred-pound bag, \$2.50; per ton of two thousand pounds, \$35.00.

NOTE.—A charge to cover cost of hauling made on ton lots and over when delivered by us in city or vicinity on all the above fertilizers. Less than ton lots delivered in city and vicinity at catalogue prices.

Lawn Grass Seed Mixtures.

We offer only the best grade of grass seed the market affords, and as you will note, offer it by weight. The old way of selling seed by bulk measure was at best very unsatisfactory to the purchaser. Modern recleaning machines now make possible the removing of much of the chaff and foreign matter, so that seed so treated is very much heavier for the same bulk, much less quantity being required. See instructions on each package.

Quantities to use of the following mixtures: 1 lb. to 400 square feet; 100 lbs. for one acre.

Edgewood Mixture for General Use.

Composed of a variety of grasses, so as to produce a permanent velvety lawn under varying conditions and in the quickest time. Especially valuable for seeding newly graded lawn areas, pleasure grounds, golf links, etc., and for re-seeding the bare places that will appear in established lawns, and for thickening thin lawns.

Edgewood Shady Place Mixture.

A mixture of varieties specially suited for shady places, otherwise similar to the above

Prices for the Above Mixtures.

Per lb., 25 cts. (by mail 35 cts.); 3 lbs., 65 cts. (by mail, 80 cts.); 5 lbs., \$1.00; 10 lbs., \$1.85; 15 lbs., \$2.75; 25 lbs., \$4.25; 50 lbs., \$8.25; 100 lbs., \$16.00.

Specimens for Immediate Effect.

At the nursery we give special attention to growing into large sizes many kinds of Fruit and Ornamental Trees, Shrubs, Vines, etc., for by their use much quicker results can be obtained than by the use of smaller stock. Many instances occur where the purchaser gladly pays the higher price for these larger sizes.

Particular attention is called to our large collection of specimen Evergreens, ready for immediate effects. A visit to the nursery is desirable where the selection of individual specimens is required, however, by sending us a description of what is desired we will make careful selections. By this method we frequently fill orders to the entire satisfaction of the purchaser.

SPECIAL DISCOUNTS NOTED ON PAGE TWO DO NOT APPLY TO FERTILIZERS AND GRASS SEEDS, WHICH ARE NET.
